- Lightweight body
- 2.0 Milled aluminum chassis
- Gen3 12mm big-bore shocks
- Front Roll Center Adjustment
- New Front Camber Block and Battery Hold Down
- Ballast tuning options (ballast sold separately)

TLR 1/10 22 5.0 2WD DC ELITE Race Kit, Dirt/Clay

The 22 5.0 has proven itself as the next evolution of the 22 2WD buggy platform. Now the 22 5.0 DC ELITE kit gives drivers a professional grade, full team-level kit all in one box! Optimized for dirt and clay tracks, the ELITE kit features fully adjustable rear pivots, adjustable height rear hubs, carbon fiber option parts throughout, and all the aluminum parts have been changed to a sharp black with silver edges to pop against the hard anodized chassis and shock bodies. Building on the improvements to the 22 5.0, the ELITE kit is significantly easier to drive while still giving the car more mid-corner steering with the revised steering geometry, smoother G3 shocks, and the optimized flex of the 2mm chassis plate. Designed to win straight out of the box, the 22 5.0 DC ELITE maximizes performance and is podium ready.

Needed to Complete:

- Motor
- Electronic Speed Control
- Servo
- Radio System
- 48 Pitch Pinion Gear
- Battery and Charger
- Wheels and Tires
- Paint
- Tools - Please refer to the manual for more details
