

22S SCT RTR: 1/10 2WD Short Course Truck

LOS03022 T1/T2

The Ultimate Sportsman Racer...In an RTR Package.

LOS03022 T1 – Magna Flow

It's no secret that Losi's pedigree comes from Team Losi Racing (TLR). The proof of that, is the introduction of the 22S SCT Brushed...The ultimate Sportsman Class racer. But don't let the race inspired design fool you, the 22S SCT is ready to bash with the best of them! Based on the TLR 22 race platform, the Losi 22S SCT has taken the engineering and performance of the 22 platform and maximized it to become the perfect "first Losi" vehicle. Completely Track-Ready out of the box, the 22S SCT is built to put you on the podium.

Want to go upgrade, go faster and take it to the next level, the 22S SCT comes equipped with a gear differential and an all metal transmission. Also, several TLR 22 platform performance parts can upgrade the look, style and performance of the 22S. To keep things under control, the 22S SCT comes with a Dynamite 12T brushed motor system that provides speeds of 30+ mph. With user-friendly design concepts, like a bottom loading battery compartment and hard mounted electronics, the user experience is hassle-free allowing the excitement to begin right away.

TARGET CUSTOMERS

Any consumer who is looking to get started in racing or just bashing around the neighborhood. With Dynamite and Spektrum electronics, this truck is as reliable as they come and fully Track-Ready! (T2 pictured)

LOS03022 T2 - Kicker
