8AMP

## EZ-Peak™

NiMH / LiPo Fast Charger AC Input **DUAL**

ADVANCED PEAK DETECTION WITH ID

Simple. Fast. Just plug in a pair of Traxxas iD batteries and press Start. Traxxas' exclusive iD technology eliminates complicated charger programming by automatically configuring and optimizing the charge settings for Traxxas iD batteries. The EZ-Peak Dual charges two batteries simultaneously at up to 50 watts (4 amps) each, or switch to High-Output mode to charge a single battery at the maximum 100 watt (8 amp) output.\* Charging faster means more fun time behind the wheel. You can even charge a NiMH and a LiPo at the same time! The progress bar and audible alerts keep you informed while the advanced high resolution peak detection delivers a perfect charge every time. The EZ-Peak Dual's Storage Mode protects your LiPo battery investment by safely preparing the batteries for extended storage.

Patent Pending

## CHARGES TWO BATTERIES AT ONCE

Dual Ports for all Traxxas High-Current Connectors and Integrated Balance Connectors for Traxxas iD Batteries

### Features

- Recognizes Traxxas iD batteries to automatically program and optimize charger settings
- Charge a NiMH and LiPo at the same time
- Charge progress indicator
- Optimized for faster LiPo balance charging
- One button LiPo storage charge protects your battery investment
- Advanced high-resolution peak detection delivers a perfect charge
- Easy to use interface
- Audible alerts
- Built-in cooling fan
- Advanced Mode for full manual control of charger settings
- Legacy support for all Traxxas High Current Connectors
- Built-in balance ports for conventional LiPo batteries
- Charges 5-8-cell NiMH batteries
- Charges 2S and 3S LiPo batteries
