

TRAXXAS

SLASH 4X4 UPDATED

NEW PART NUMBER: 68086-4

The Traxxas Slash defines the Short Course truck segment and sets the standard for durability, performance, and technology. Innovative features like Traxxas Stability Management (TSM), modular chassis design, and extreme Velineon brushless power complement Slash's track-tested precision and rock-solid durability.

Slash 4X4 now comes without a battery or charger to allow your customers to select the right setup for their needs. When sold with a Traxxas Battery and Charger Completer Pack, it is the ultimate in performance and customer experience.

- New Model Number: **68086-4**
- New Lower Price! **\$399.95 MAP**
- Battery and charger now sold separately
- Pair with a Traxxas Battery and Charger Completer pack for total performance and customer experience
