

OVERVIEW

EXTREME POWER

STEP UP TO 8s WITH iD CONVENIENCE

4S - 14.8 Volts 25C Sustained 50C Burst 3C Charge

Traxxas takes battery power for your X-Maxx to the next level with new 4-cell LiPo battery. The 6700mAh capacity and 50C burst discharge rate deliver the power, performance, and runtime worthy of the X-Maxx. Checking in at over 30-volts in 8s configuration, Traxxas 4-cell LiPos will stand X-Maxx on its wheelie bar and have it catching massive air as fast as you can grab the throttle. Built using the same sturdy construction methods as the Traxxas 2-cell and 3-cell batteries.

Traxxas 4-Cell LiPo Features

- Traxxas High-Current Connectors
- Integrated LiPo Balance Charging Wires
- Semi-Rigid Construction for efficient packaging
- Oversized Discharge Tabs for minimum resistance
- Hard-wired 12-gauge Maxx Cable soldered to cells
- Center Wire Exit for guaranteed proper fitment

Part #2890X: Traxxas Power Cell LiPo 4-Cell 6700mAh Battery with iD
