

LaTRAX

ALIAS ACCESSORIES

Camera Available Mid-May

- 720p HD video
- 12 MP still photos
- Full color video and still images
- Installs quickly
- Articulating lens
- Integrated design
- Take photos and start/stop video recording from the transmitter
- Transmitter LCD shows status
- Uses Micro SD card (sold separately)
- Optional 120° wide angle lens

Add crisp high-quality, full-color aerial photography and video capability to Alias with the new LaTrax 720p Camera. After quick installation, Alias recognizes the camera and automatically configures the transmitter controls. The camera conveniently saves photos and videos to a removable micro SD card (sold separately). Expand Alias' high-performance fun with aerial photography! Install the optional 120° wide-angle lens to increase the field of view.

Camera

Wide-Angle 120° Lens

LED Light Bar Available End of April

Take Alias night flying fun to the next level with the high-intensity LED light bar. Alias auto-detects the LED light bar, and it can be turned on or off from the transmitter. The adjustable position light bar offers a variety of angles for maximum visibility from the seven LED lights.

LED Light Bar

- 7 high-intensity, ultra-bright LEDs
- Installs in seconds
- 0-90° articulation
- Integrated design
- Easily control from transmitter
